DESCRIPTION

You want full control when monitoring your home or office? Then the Eminent Rotating Internet Camera is just the camera for you! With this Pan Tilt webcam you'll always be centered on the right subject. The camera can rotate up, down left and right remotely. You can easily control the camera by accessing the built-in web page. You're not at home? No problem! The Rotating Internet Camera can simply store captured images with its built-in Compactflash (CF) reader, for you to inspect later. Because you would like to show live video to your friends, the camera includes 3 levels of access. Guests can only see video. Users can also rotate your camera. And as an administrator, you'll have full control over your own camera. Video moments can be saved directly to harddisk from the built-in webpage. You won't miss a moment thanks to the Eminent Rotating Internet Camera! The camera comes with a bracket for wall or ceiling mounting.
