HDMI Repeater via HDMI cable

Extend an HDMI signal up to 40 meters via an HDMI cable

DESCRIPTION

The Eminent AB7814 Repeater extends an HDMI signal over a distance up to 40 meters. The maximum resolution is 1080p @ 60Hz. The AB7814 Repeater is ultra-compact. No additional power supply needed.

Display videos up to 40 meters from a media player.

You want to play your videos from a Blu-ray player on your TV, but there is too much distance between them? No problem. The Eminent AB7814 enables you to play your movies with a maximum distance of 40 meters from your media player, Blu-ray or DVD player without compromising video quality.

Connecting your devices

Connect the AB7814 Repeater with two High Speed HDMI cables with a maximum (3D) resolution of 1080p @ 60Hz. The total distance between the source and TV can be up to 40 meters. The AB7814 Repeater does not require an external power adapter.
